END OF MODIFICATION

SECTION I

ATTACHMENT B

LAWS, REGULATIONS, AND DOE DIRECTIVES APPLICABLE TO RFETS

SECTION J

ATTACHMENT B

LAWS, REGULATIONS, AND DOE DIRECTIVES APPLICABLE TO RFETS

The DOE Directives and Laws found in the following listings are the "List of Applicable Laws and Regulations," "List of Applicable Directives" and "Lists A and B" as those terms are used in paragraph (b) of Clause I.115, LAWS, REGULATIONS, AND DOE DIRECTIVES. Exemptions, waivers and variances that exist in contract DE-AC34-95RF00825 will carry forward to this contract. List A is not necessarily an all-inclusive list. The Contractor should follow the established exemption process to obtain relief from requirements of these directives and regulations where applicable.

Section C refers to Statements of Commitment which details a tailored and focused application of Directives for a closure project. The Field Office will enable this tailoring through a "best efforts" approach.

It is anticipated that during the performance of this contract, the conditions for applicability of certain DOE Directives may no longer exist. For example, when special nuclear materials (SNM) are removed from the site, the conditions for applicability of those DOE Directives addressing safeguard and security of such material may no longer exist. In any such situation where the Contractor seeks relief from the requirements of such DOE Directives, the Contractor may notify the Contracting Officer in writing, explaining the reasons for its belief that the DOE Directives no longer apply to contract performance. The Contractor may, at its own risk and assumption of all responsibility, cease to fulfill the requirements of such DOE Directives once written notification has been delivered to the Contracting Officer. The Contracting Officer may determine that the conditions for applicability of a DOE Directive still exist, and may direct the Contractor to continue compliance with the DOE Directive. Additionally, even without such direction by the Contracting Officer, if the conditions for applicability of a DOE Directive once again arise (e.g., SNM is discovered unexpectedly during demolition efforts), the DOE Directive will immediately become applicable once again.

Sections or paragraphs of DOE Directives which are not applicable to RFETS (e.g., DOE C 460.2 Section 2 relative to shipping information on SNF and HLW) are self deleting.
