

**APPENDIX B**  
**EFFLUENT RELEASE POINTS**  
**CALENDAR YEAR 2002**

## Effluent Release Points Calendar Year 2002<sup>a</sup>

Building-Location	Release Points	Subpart H Category	Notes
<b>Release Points Sampled Throughout 2002</b>			
371-N01	1	Significant	
371-N02	1	Significant	
371-SSS	1	Significant	
374-MAI	1	Significant	
440-101	1	Significant	
559-561	1	Significant	
707-101/103	1	Significant	
707-102/104	1	Significant	
707-105	1	Significant	
707-106	1	Significant	
707-107	1	Significant	
707-108	1	Significant	
707-R21A/B	2	Significant <sup>b</sup>	Sampling to support decommissioning, effective 11/05/01.
707-R23A/B	2	Significant <sup>b</sup>	Sampling to support decommissioning, effective 11/05/01.
707-R25A/B	2	Significant <sup>b</sup>	Sampling to support decommissioning, effective 10/01/01.
771-MAI	1	Significant	
<b>Release Points Sampled During Part of 2002</b>			
707-R22A/B	2	Significant <sup>b</sup>	Sampling to support decommissioning, effective 1/07/02.
707-R24A/B	2	Significant <sup>b</sup>	Removed from service 10/07/02 due to active decommissioning.
707-R45A/B	2	Significant <sup>b</sup>	Sampling to support decommissioning, effective 1/07/02.
707-R46A/B	2	Significant <sup>b</sup>	Sampling to support decommissioning, effective 1/07/02.
774-202	1	Significant	Removed from service 9/30/02 due to active decommissioning.
776-201	1	Significant	Removed from service 7/01/02 due to active decommissioning.
776-202	1	Significant <sup>b</sup>	Removed from service 7/01/02 due to active decommissioning.
776-204	1	Significant	Removed from service 7/01/02 due to active decommissioning.
776-205	1	Significant	Removed from service 7/01/02 due to active decommissioning.
776-250	1	Significant <sup>b</sup>	Removed from service 7/01/02 due to active decommissioning.
776-251	1	Significant <sup>b</sup>	Removed from service 7/01/02 due to active decommissioning.
776-252	1	Significant <sup>b</sup>	Removed from service 7/01/02 due to active decommissioning.
<b>Total</b>	<b>35</b>		

<sup>a</sup> Formerly monitored release points where sampling has been permanently discontinued were listed in the calendar year 2000 report (DOE, 2001).

<sup>b</sup> These emission points were proactively upgraded to “significant” (and monitored accordingly) to support decommissioning work, though the actual material processing and holdup in the areas exhausted through these points may not have the potential to contribute a 0.1 mrem dose in any given year.
